

Valcambi at Fairmined Meeting Europe

Valcambi participated in the Alliance for Responsible Mining (ARM) Fairmined European meeting held in Vienna on 7 January.

Attended by 14 delegates including independent jewellery manufacturers Fairmined licensees and Fairmined authorised and non-authorised suppliers, the meeting focused on the latest Fairmined achievements and strategy plan for 2019 and beyond.

The event gave participants the opportunity to share their experience and expectations of working with Fairmined and provide their comments and input on the next version of the Fairmined Standard, to be issued mid-2019.
