

## Valcambi at ASM conferences in Peru

On 12 December, Valcambi participated in the conference “Pequeña Minería para el siglo 21 – Trazabilidad y comercialización de oro” (Small Mines for the 21st Century – Gold traceability and commercialisation) organized by the Peruvian Ministry of Energy and Mines, the Better Gold Initiative (BGI), Solidaridad and the Alliance for Responsible Mining (ARM) in Lima. Attended by around 60 participants, including mining cooperatives, gold traders, public authorities, international cooperation and civil society, the event gave Valcambi the opportunity to share its sourcing strategy and discuss solutions for the Artisanal and Small-Scale Mining gold sector.

Representative from the local government of Puno with BGI Peru representative Yharica Seminario.

A similar event dedicated to mining cooperatives from the Puno region was organized by BGI on 14 December in Juliaca. The 80 delegates discussed the issues related to direct export from cooperatives and looked for practical solutions.

Representatives from BGI, local implementer ABR and participants of the seminar in Juliaca
