

Valcambi hosts European EPRM board and members meetings

On 19 and 20 November, Valcambi hosted the European Partnership for Responsible Minerals (EPRM) governance board and members meetings. 22 EPRM members were given a tour of Valcambi's precious metals plant going through the entire flow of operation from reception of the materials, foundry, refinery, finishing lines, and of course the laboratory. Participants saw first-hand the processing of Artisanal and Small-Scale Mining gold in a fully segregated way.
