

Valcambi at the InterGovernmental Forum (IGF) AGM

Valcambi participated in a session titled 'COVID-19 and the Future of Responsible Sourcing' at the occasion of the InterGovernmental Forum (IGF) AGM held online from 20 to 22 October.

Along with IPIS, the Alliance for Responsible Mining (ARM), the European Partnership for Responsible Minerals (EPRM), we presented the challenges that Covid-19 has brought to the artisanal miners Valcambi sources from and to operating the supply chains we have established with them, and outlined the support and solutions we have put in place. We also reiterated our commitment to the ASM sector with some new mines to be included in our supply chains in the near future.
