

Press release

29 October 2018 – Valcambi reaches understanding to acquire Republic Metals Corporation

Valcambi SA, one of the world's largest gold refiners, today announced that it has reached an understanding to acquire Republic Metals Corporation (RMC), a precious metals refiner based in Miami US, subject to completion of the final steps of due diligence. The two companies are working through the logistics of the planned integration.

The combined entity will ensure more efficient and better service to the existing and prospective clients of RMC. The combined entity will enhance the quality control, technology and various other aspects of refining of RMC and would make RMC one of the most preferred and best refinery of precious metals in the world.

Note to editors

Valcambi is a world leader in the refining of precious metals with more than 55 years of experience. Based in Switzerland, the company operates one of the world's largest and most efficient integrated precious metals plants, with an annual refining capacity of up to 2,000 metric tonnes. Valcambi refines gold, silver, platinum and palladium and offers a broad range of products and services of the highest global quality. The company is committed to conduct its activities in a responsible manner, to drive industry best practices and to unlock development and growth opportunities.
